Livestock Inventory Calculation Worksheet Instruction Guide

How to Complete Your Livestock Inventory Calculation Worksheet

The Livestock Inventory Calculation Worksheet can be used to help report the changes in livestock inventory that have occurred in the farming operation during the fiscal year. The worksheet can be submitted with your AgriStability forms to assist with processing the file.

- 1 Your SCIC ID and AgriStability PIN are different numbers. The AgriStability PIN is generated by the Federal Government for AgriStability and AgriInvest purposes, whereas the SCIC ID is unique to your Saskatchewan Crop Insurance account.

Note: Crop Insurance contract numbers are not to be used as either the SCIC ID or AgriStability PIN.

- 2 Enter the applicable commodity code for the inventory you are reporting. Access the current Commodity Code Guide at www.saskcropinsurance.com/agristability/publications or call SCIC at 1-866-270-8450 for assistance.
- 3 Report all livestock by code, listing each class separately. The Commodity Code Guide can be used to assist with choosing the appropriate description.
- 4 Enter inventory that is on hand at the start of your fiscal year (e.g., if your fiscal year is January 1 to December 31, enter what was in inventory as of December 31 in the prior year).

This worksheet can assist you in calculating the ending amounts necessary for completing your AgriStability forms. This worksheet is for your own reference and is not required to process your application. Transfer the amounts from the lettered columns to the corresponding columns on your AgriStability forms.

Section 7: Livestock Inventory Valuation (Starting inventory + Births + Purchase - Sales - Deaths + Transfers in - Transfers out = Ending Inventory)

A Code	B Description	C Starting Inventory	Births	Purchases	Sales	Deaths	Transfers in	Transfers out	Ending Inventory
2	3	4							
8002	<i>Cows</i>	<i>290</i>							
8062	<i>Replacement Heifers</i>	<i>67</i>							
8007	<i>Calves</i>	<i>348</i>
